Experience

React Native Developer

Star crest

January2023—Present

- Developing mobile applications using React Native framework.

- Collaborated with the UI/UX team to make sure app designs are implemented correctly.

- Integrated third-party libraries and APIs into the application.

- Optimizing app performance and ensured it is scalable.

- Debugging and troubleshooting issues in the application.

Full Stack Web Developer

Socneting

Sept-2021—December 2022

- Understood project requirements by gathering and analyzing information from clients, stakeholders, and other team members.

- Collaborated closely with team members, including developers, designers, and project managers, to ensure that the web application met all client requirements.

- Developed and maintained front-end components using HTML, CSS, JavaScript, and React libraries.

- Developed and maintained back-end components, including working with databases, APIs, and servers.

- Integrated third-party APIs, such as payment gateways, maps, and social media.

- Tested and debugged the web application to ensure that it was free of bugs and ran smoothly.

Back-end Developer

The Map

December-2020 – August 2021

- Developed and maintained RESTful APIs using Node.js, Express, and MongoDB.

- Built and deployed web applications using React, React Native, and Redux.

- Optimized web applications for performance and scalability.

- Worked collaboratively with the front-end development team to ensure seamless integration of the APIs with the web application.

- Designed and implemented database schemas using MySQL and MongoDB.

- Integrated third-party APIs such as payment gateways, social media platforms, and maps into the web application.

- Conducted testing and debugging of the APIs and resolved issues to ensure smooth functioning.

- Contributed to the development of new features and improvements to the web application.

- Followed agile methodologies and participated in sprint planning, retrospectives, and daily stand-ups.

- Completed all projects successfully within the given timeline and budget.

IT Specialist

O.G.A Logistics

February-2020 – Nov-2020

- Providing remote desktop support for users.

- Experienced in managing and troubleshooting wireless networks, including access points, controllers, and security protocols.

- Provided Technical assistance to users and oversees a help desk for user optimizing customer service.

- Operates and maintains the IT environment that contains and not limited to (Active directory, Exchange, Backup, TOS support).

- Skilled in monitoring and analyzing IT systems performance and capacity, utilizing tools such as SolarWinds, PRTG, or Nagios.

- Handle the maintenance and repair of hardware and software packages.

- Configuration Windows Server 2012 & Windows Server 2016 with Cisco wireless controller.

- Administration and Configuration of Service Desk Ticketing System.

- Create documentations for the company's SOPs and create reports to measure team's KPI.

Education

Yaba College of Technology-   Biochemistry 2019

Skills

- JavaScript
- MongoDB
- Azure
- React Native
- AWS
- React
- CSS
- Firebase
- NodeJS
- HTML
- MySQL
- Prisma
- Express
- PostgreSQL
- TypeScript
- Team Work
- Problem Solving
- Time Management
- Critical Thinking

Professional Summary

Highly skilled React, NodeJS, React-Native developer with 3+ years of building efficient and scalable web applications and mobile applications and integrating with various database and optimizing application performance. Proficient in developing reusable components using React and React-Native for iOS and Android. Strong understanding of HTML, CSS, JavaScript, TypeScript, Redux and other state management libraries, and experience working with native modules and third-party libraries.

Implementing RESTful APIs and core understanding of JavaScript NodeJS framework and React, React-Native libraries.
